## NEW CONGRESS IN CENTER OF NATIONAL STAGE

### Coolidge Warns Against Farm Price Fixing

#### ARTIFICIAL RELIEF TABOO PRESIDENT ADVISES FARMERS

Convention of Farm Bureau  
In Chicago Addressed  
By The President

#### REVEALS PROGRAM TO HELP FARMERS

Declares Price Fixing Law  
Would Destroy Co-operative  
Bodies

Chicago, Dec. 7.—President Coolidge, standing before an audience of "farm" farmers assembled here in convention, warned them today they need not look to Washington for any legislation embodying artificial relief for their troubles.

The president was speaking to the convention of the American Farm Bureau Federation, but his remarks were directed in part to the congress assembling in Washington today, in effect, he advised those who have been planning to revive various farm relief measures that his administration would not countenance any price fixing legislation whether it be direct or indirect.

"No matter how it is disguised, the moment the government engages in buying and selling farm products, he said, it is fixing prices. It is a fact, he said, that if the government were to buy and sell farm products, it would appear to destroy co-operative associations and all other machinery, for no one can compete with the government. Ultimately, it would end the independence which the farmers of the country enjoy as a result of centuries of struggle and prevent the exercise of their own judgment and control in cultivating their land and marketing their produce.

**Administration's Program**  
"Government control can not be divorced from political control. The overwhelming interest of the consumer, not the smaller interest of the producer, would be sure to dominate in the end."

The administration's program for aiding agriculture, Mr. Coolidge said, will consist of continuance of the protective tariff, assistance in developing co-operative marketing organizations, and expansion of federal credit agencies.

The president's defense of the tariff as a protection for the farmer was warm. Citing official statistics, he undertook to prove to the members of the American Farm Bureau Federation that the tariff was a protection for the farmer.

#### ROBBERS RANSACK HOME NEAR SALEM

Lee Camp Returns To Home  
On Lisbon Rd. To Find  
Work Of Robbers

While Lee Camp and his family were in Salem early Saturday night, robbers broke into the Camp home, Lisbon rd., and stole an electric toaster, and it is believed the robbers were frightened away before they could gather much loot.

Camp found that the rear door had been partially broken in by a pick which one of the robbers dropped near the door. A window was raised and an entrance to the house was made in that way. The house was thoroughly ransacked.

The robbers were probably at work when Camp came home, he believes. He notified Salem police who investigated.

Here are the officers chosen by Treasurer Post No. 10, G. A. R., to serve for 1926:

Reed; officer of the guard, John Everhart; chaplain, William Horne; adjutant, quartermaster, Charles Bonnell; sergeant, S. R. Reed; quarter master, Henry Oiler; delegates to state encampment, Charles Bonnell and C. C. Mulford; alternates, Mr. Reed and Alfred Thoman.

#### Senior Class Play Postponed To Dec. 16

The play "Ice Bound" to have been given by the senior class of the Salem High school Dec. 10 and 11, has been postponed until Dec. 16 and 17, on account of the illness of Henry Vogel, Jr., who plays one of the leading roles. Seats will be reserved on Dec. 14 and 15.

#### Increase Of 5771 In Divorces, 45,718 Slump In Marriages

Washington, Dec. 7.—Day by day, year by year, marriage is getting more uncertain and divorce frequent.

Divorces numbered 170,867 in 1924, an increase of 5,771 over 1923.

Marriages totaled 1,178,204, just 45,718 under the preceding year.

These figures, the first authentic list of the year's marital battle in the name of love were made public today by the Department of Commerce.

Between the lines of the drab statistics is a sordid story of love piracy, hobbled hair, moonshine licker, skillet huriers, cabaret slickers, mothers-in-law, fast living and a thousand and one other reasons why husbands and wives forget that they are

led by the oath "till death do us part."

Reno was a complete flop as a divorce center.

Texas, with a feminine governor, captured the distinction of record matrimonial break-ups for the year with 15,375 decrees granted. Nevada was far down the list with 1,037.

Illinois registered second for divorces granted with 13,658. Other states ranked: Ohio, 11,946; California, 11,258; Michigan, 9,224 and Missouri 9,104.

All states showed increased divorces over 1924.

Illinois ranked next to New York in marriages, 81,918 ceremonies having been performed. Other states in the "first division" of marriage were:

Pennsylvania, 73,331; Texas, 71,986; California, 55,677; Ohio, 50,346 and Michigan, 49,738.

#### CHILDREN PLAY WITH SHOTGUN; GIRL IS KILLED

Elyria, Dec. 7.—Ada German, three was dead today, the victim of an unusual tragedy. She was shot and fatally wounded late yesterday by her cousin and playmate, Richard Brubaker, aged 5 years.

The youngsters were playing in the Brubaker home, when they found a shotgun behind the bathroom door. Mrs. Sam Brubaker, Richard's mother, heard a shot. Rushing upstairs she found Ada, part of her head blown off, and the smoking gun on the floor.

#### JAZZ HALTED FOR OLD TIME FIDDLER

Whole Town Gives Musician  
Of Old School Rousing Send-off

Norway, Me., Dec. 7.—A jazz-mad world paused for a moment today in its reckless whirl and turned back the pages of memory to the earlier American days of simple things, and homely manners.

Walls of the saxophone, producing "She's My Baby," gave way to the bow of the old fashioned fiddle singing the merry "Money Musk."

Sophisticated dancers, poised on the toe of the dizzy Charleston, stopped to watch the boys and girls of long ago on the old barn floor "balance to partners."

And all because "Mellie" Dunham, 72, champion Maine fiddler and snow shoe maker, and his good wife left their snug farm house here for Dearborn, Mich., where the humble, little white haired musician of the old school will draw his bow for Henry Ford, richest man in the world.

Mr. Ford is paying all expenses of the trip but if he asks "Mellie" the fee it will be \$3, the regular out of town playing rate.

A parade, music, closing of schools and stores, speeches, flag flying and the presence of Gov. Ralph O. Brewster and staff for the send-off of the elderly man and his devoted wife—and the Babbits of bustling Norway and South Paris were very busy.

#### SECOND COMING OF CHRIST HIS SERMON TOPIC

Rev. C. E. Haworth, pastor of the First Friends church, will speak on "The Second Coming of Jesus Christ" Monday evening at the evangelistic service at this church.

Meetings will be held each evening this week, except Saturday, at 7:30 o'clock, and be preceded by a prayer service at 7 o'clock.

Friday evening will be observed as Young Peoples night, when there will be a message of special interest to young people.

The Sunday services were very helpful. At the morning service Rev. Mr. Haworth preached on "The Power of the Holy Ghost" and in the evening his subject was "Selling Your Birthright."

#### Train Strikes Auto, One Dead, 3 Injured

Berea, Dec. 7.—Mrs. Mary Hitchcock, 67, was killed and three others are in a hospital as a result of their auto being struck by a Big Four train at a crossing. Witnesses say that the gates were not closed, and a probe was ordered by county officials.

#### To Lead Women in Their Fight for World Court

Mrs. Park says that there will be real feminine warfare having the nation's swords beaten into ploughshares.

#### FALL AND DOHENY INDICTMENTS MUST STAND SAYS COURT

Court Of Appeals Reverses  
District Justice Who  
Quashed Charges

Washington, Dec. 7.—The criminal indictments against Ex-Secretary of the Interior Albert B. Fall, Edward L. Doheny, Sr., and Edward L. Doheny, Jr., growing out of the leasing of the Elk Hill oil reserve, must stand, the federal court of appeals decided in a ruling handed down here today.

The indictments charge Fall with receiving \$100,000 from Doheny, Sr., charge Doheny with giving it to Fall, and charge Doheny, Jr., with complicity in acting as the carrier of the money in the famous "little black at-bell."

The court of appeals reversed the recent decision of Chief Justice McVey in the District of Columbia supreme court, quashing the indictments.

It is regarded as certain that attorneys for Fall and the Dohenys will appeal today's decision to the United States supreme court if necessary, inuring a lengthy fight.

Today's decision stands the test of higher courts. It means that Fall and the two Dohenys, father and son, will have to stand trial on the indictments, charging bribery and corruption.

Cleveland, Dec. 7.—Expressing gratification at the action of the United States court of appeals in holding valid indictments returned against former Secretary of the Interior Fall and Edward L. Doheny, Sr., in connection with the leasing of Elk Hills oil reserve to Doheny, former Senator Atlee Pomeroy, of counsel for the government, declared that an important legal principle had been established.

#### Population Grows

Cleveland, Dec. 7.—Estimates place present population of Cleveland and suburbs at 1,128,911.

Officer, page Mr. Houdini.

That king of the mystery men is in danger of losing his title to an ordinary gentleman of the road.

For only a Houdini, or better, could do the things Mose Jones does with his wand and a few kind words to the spirits.

Mose visited Salem Saturday night, and was one of five members of the "Mystery Men" to seek lodging for the night in a city hall.

their guests Saturday night for there were three cash customers in the lot, making eight in all for the night.

Came midnight since none could stop it.

A considerable noise was noticed in the jail by firemen who had retired to their boudoir upstairs.

The firemen decided to find out what all the racket meant.

As one of the fire enters struck his head in the jail door, Mose said: "Mister, get me some salt."

#### ED MOORE, LEADER OF DEMOCRATS, IS CLAIMED BY DEATH

Striking Figure In Politics  
Dies Suddenly While  
In Youngstown

#### MANAGED HARMON, COX CAMPAIGNS

Born Near Canfield, Moore  
Became Widely Known  
As A Lawyer

Youngstown, Dec. 7.—Succumbing to an attack of acute indigestion, Edmond H. Moore, Democratic national committeeman from Ohio, and widely known lawyer, was dead here today. His death occurred late last night.

Moore, who recently had lived in Cleveland, was the guest of relative here for a few days. He complained of not feeling well, and was given treatment. He dropped dead as he started for his room.

One of the most striking figures in Ohio politics in the present generation, Edmond H. Moore, who was born near Canfield, Oct. 16, 1862, had played a prominent part in the affairs of his state and nation for many years. His political career began when he was elected mayor of Youngstown in the spring of 1896. He was re-elected two years later.

He entered state politics with his election to the state central committee of his party in 1900, and since that time had served continuously either as a member of the central or executive committees.

He was appointed state superintendent of insurance by Gov. Judson Harmon, whose campaign in 1912 he managed. Early in the administration of Gov. James M. Cox, he retired to private life and the practice of law, continuing, however, an active interest in politics.

In 1920, he was chosen as manager of the campaign of Gov. Cox for the Democratic presidential nomination. After one of the longest deadlocks in political history, his strategy resulted in the nomination of Gov. Cox. After the convention he retired from the national committee, in order that George White of Marietta, might be chosen as chairman of the national committee.

At the historic Madison Square convention of 1924, Moore was a main elected a member of the national committee.

Moore was twice married but was a widower at the time of his death. His wife took place at the home of M. G. Grimes, where he had been a guest since last Tuesday. Two sons are members of his law firm, which maintains offices here and in Cleveland.

Funeral services will probably be held Wednesday or Thursday, it was stated here this morning, although arrangements are not completed.

Berea, Dec. 7.—Twelve families were driven from their apartments by fire, and firemen and volunteer apartment building here.

The village's only fire truck skidded into a trench on its way to the fire, and firemen and volunteers dragged the hose the rest of the way to fight the flames.

### ARRAY OF NATIONAL AND INTERNATIONAL PROBLEMS IN STORE

Republican Majorities Not  
Sufficient To Hold  
Insurgents Down

#### NEW REVENUE ACT FIRST BIG MOVE

Aircraft, World Court, Farm  
Relief, Prohibition Are  
Main Issues

#### BULLETIN

Washington, Dec. 7.—The sixtieth congress, which was voted into office thirteen months ago on the crest of the great Coolidge wave, met today and organized itself in record time for the six months of legislative struggling ahead.

The Republican majority overrode all opposition and selected Rep. Nick Longworth, as speaker by a substantial majority, despite the Democrats voting for Rep. Finis Garrett of Tennessee, and the northwest insurgents showing their defiance of organizational control by casting their votes for the venerable Henry Allen Cooper of Wisconsin.

Washington, Dec. 7.—Fresh from a nine months' contact with the people "back home," congress returned to center of the national stage today to take up and deal with a vast array of problems, national and international.

It is a new congress, the 69th in the slow march of congresses, predominantly Republican in both houses yet sufficiently tattered with the brush of insurgency as to make its leaders somewhat apprehensive.

It will be their leaders believe, a "Kilkenney" congress, a sort of free-for-all, with President Coolidge and his lieutenants hard put at times to accomplish some of the things that are near the top of the administration program.

The House, despite the opening glare of progressive trumps, is considered comparatively "safe" by administration leaders. There the e-plush majority over all opposition is sufficiently large to allow for the defection of the Wisconsin insurgents and their cohorts.

#### Senate Majority Slim

The senate is more difficult from the administration standpoint. There is a paper majority for the Republicans there of 15, yet it is a majority that cannot be welded, that cannot be counted upon, and, in fact, can be counted on to oppose many of the measures that the administration will sponsor. At least eight of this nominal majority of 15 vote as often with the Democrats as with their own party, thus turning a seeming Republican majority into a minority.

Opening day found the leaders as well as the rank and file generally agreed upon but one big point in the session at hand. That is the desirability of proceeding immediately and forcefully with the passage of a new revenue act, which will top some \$255,000,000 from the annual tax bill of the people.

By March 15, next, both Republican and Democratic leaders predicted everyone's income tax will have been cut approximately in half, and the last of the wasteful "nuisance" taxes wiped off the statute books.

In the uncharted seas that lie beyond this tax bill, there promises to be some sanguinary conflict, with the aircraft controversy, the world court, prohibition enforcement and agricultural relief furnishing the battle rally posts. It is upon these issues, and others of lesser import, that President Coolidge and his lieutenants are going to be hard put at times to keep control of the situation.

#### SCORES OF BILLS GO INTO HOPPER

La Guardia, Representative  
From New York, Leads  
With 14 Bills

Washington, Dec. 7.—America's annual tree-fall race to legislative hopper got under way here at noon today upon the convening of congress.

Hundreds of bills and resolutions, ranging from those affecting a single individual to those bearing on vital national issues were chucked into the opening session. The vast majority of them are doomed to a lingering death.

Rep. F. H. La Guardia, Republican, independent of New York, led the early starters with introduction of 14 measures. Rep. Swing (R.), California, had seven. Others had varying numbers.

One of La Guardia's was a resolution calling for a congressional investigation of bankruptcy proceedings "in New York and elsewhere." Others called for trial by jury in contempt of court cases, liberalization of the immigration law, legislation of high wines and beers, etc.

#### French Woman's Officer World Suffrage Body

Millicent Fawcett, French feminist leader, has been appointed a general secretary of the International Suffrage Alliance. The fight for equal suffrage is said to be waging hotly in France.

#### DRUNKEN DRIVER'S LICENSE REVOKED BY ACTING MAYOR

Another Driver Will Face  
Same Charge; Jail Sentence Suspended

Two drunken drivers, one of whom drew a suspended jail sentence and had his license taken from him, and a dry law violator were arrested by Salem police over the week end.

James Smith was arrested late Saturday afternoon by Patrolman Paul Heckert for driving his machine through city streets while under the influence of liquor.

Sunday, Acting Mayor E. L. Augustine fined Smith \$20 and costs, sentenced him to 30 days in jail, and revoked his license for the balance of 1925. Pending his good behavior, the acting mayor suspended the jail sentence but warned Smith that he will go to jail immediately if he is arrested again.

Sunday night Chief of Police T. W. Thompson arrested Louis Nono on a charge of driving while intoxicated after Nono ran his automobile into one owned by Lawrence Murphy.

Murphy's car was parked near the waterworks on Roosevelt ave, when Nono lost control of his machine and it crashed into the rear of Murphy's car, damaging both machines considerably.

Nono was brought to city hall and his friends put up a forfeit for his release after he spent several hours in jail. He is to appear before Acting Mayor Augustine Monday night.

Patrolman Jesse Gray arrested William Finley on Broadway Sunday night after complaints had been received at police headquarters that a man was using vile language on that street. Finley was charged with disorderly conduct and was taken to city hall. There Gray searched him and found a bottle of alleged liquor in Finley's pocket, so the officer added a charge of possession.

Finley is in jail today awaiting arraignment. He will probably face Augustine Monday night to answer to the two charges.

Other buildings were not endangered. The fire is believed to have started in a wooden building where janitor's supplies were kept.

## THE HEALTH MESSAGE

Each of our national holidays brings to us its own peculiar mes-  
sage. The Christmas season, as no  
other, is associated in our mind  
with the gospel of good will. What-  
ever our religious beliefs or ethical  
convictions may be, we all respond  
at this time to the spirit of unselfish  
service, epitomized in the simple  
words, "Merry Christmas." Our gen-  
erous impulses reach out to embrace  
those who are less fortunate than we.  
That is why we welcome the advent  
of the Christmas Seal—it gives us an  
opportunity to say "Merry Christ-  
mas" in a practical, helpful way.

When Elmer Holboell, an obscure  
Danish postal clerk, originated the  
Christmas Seal to finance a hospital  
for tuberculous children, he little  
dreamed that within two decades, the  
American people would be using an-  
nually 450 millions of seals, and that  
the proceeds from their sale would  
furnish the means of war for the  
most successful volunteer health  
movement in the United States. Nor  
did Holboell foresee the startling re-  
volution which would be brought about  
in our public health thinking, as one  
of the indirect results of the seal.

Twenty years ago, no one would  
have associated tuberculosis, its mis-  
ery and despair, with the holiday  
spirit of Christmas. To inject depres-  
sing thoughts of plagues, disasters  
and disease into the Christmas ses-  
sion would have been considered im-  
polite and out of place. Today, we  
cheerfully support the Christmas  
Seal campaign as an integral part of  
the Christmas season. To us in Ohio,  
it is as indispensable as the turkey  
and the pudding. It does not seem  
out of place to us because we have  
undergone a remarkable change in  
attitude; we have developed entirely  
new concepts about public health.

For no longer do we dwell on the  
horrors of disease, but rather do we  
stress health—exuberant, robust, ex-  
panding health. The Tuberculosis  
Seal has become a Health Seal.  
There has come gradually a new con-  
cept of public health building, which em-  
phasizes positive health building rather  
than a passive defense against dis-  
ease.

What could be more fitting to the  
Christmas season than to associate it  
with the priceless gift of health?

## UNWARRANTED ASSAULT

The same first page which told of  
the attack of 26 national reform or-  
ganizations on President Coolidge for  
his alleged indifference to prohibition  
enforcement told also of the arrest,  
under the orders of the chief enforce-  
ment officer designated by President  
Coolidge, of the ringleaders of what  
is said to have been the biggest liquor  
syndicate in the country control-  
ling 18 ocean steamers engaged in  
the liquor trade and acting as the  
American clearing house for their  
illicit cargoes.

Every evidence is that President  
Coolidge, Secretary Mellon and Gen.  
Andrews are making an earnest and  
intelligent effort to accomplish the  
herculean task of enforcing prohibi-  
tion. Under Gen. Andrews the field  
force is certainly doing more effec-  
tive work than when a man of the  
professional reformers' own choosing  
was the active head of it. The propa-  
ganda department is not functioning  
now as it did and the reliance is  
placed on real work, which is an in-  
finitely more promising weapon. To  
charge, as these excited reformers do,  
that President Coolidge is not trying  
to enforce the prohibition law honest-  
ly and as thoroughly as may be, that  
he has ulterior motives in this mat-  
ter, not only is contrary to the evi-  
dence, but involves an assumption so  
at variance with the general estimate  
of the president's whole character  
that the organizations which make  
it doubtless will suffer a further loss  
in public esteem and influence. They  
leave the painful impression of snap-  
ping and snarling at the heels of their  
betters. The reputation of the at-  
tack by two or three members of the  
committee directly responsible for it  
does credit to their sense of the fit-  
ness of things.

## Capitol News

By FREDERIC J. HASKIN

Washington, Dec. 7.—The public to-  
day is truly on the "inside" of what  
the government is doing. This is  
due to the splendid system built up  
for the dissemination of news of an  
official character. The relations that  
exist between the press of the nation  
and government agencies were never  
so cordial as they are today.

Actually it may be said that gov-  
ernment officials have the latest  
strings on the outside. The utmost  
effort is made by those controlling  
government news sources to see that  
press and public are taken into the  
government's confidence on all mat-  
ters of public interest.

This wide open policy, however,  
does not mean that in matters affect-  
ing diplomatic relations with foreign  
governments everything that trans-  
pires can find its way into  
public print and at the same  
time negotiations of one kind or an-  
other are in progress. In questions  
of an internal character it is not al-  
ways expedient to broadcast the de-  
tails, for in so many instances se-  
crecy is essential to the successful  
conclusion of such parleys. And  
often in the public interest this se-  
crecy must not be violated.

The president and all members of  
his cabinet maintain the closest re-  
lations with the press through regu-  
lar press conferences. The chiefs  
of government boards, bureaus and  
commissions are accessible at all  
times to members of the press.

Besides, all departments of the  
government and many of the inde-  
pendent bureaus maintain informa-  
tion or publicity offices, through  
which they may clear to the public  
statements or other material of pub-  
lic importance.

There are hundreds of active news-  
paper correspondents in Washing-  
ton. These men are the eyes of 110,  
000,000 American people. They can  
be depended upon to know what is  
going on in Washington. Frequently  
they know news before they can pub-  
lish it, for it often happens that they  
are taken into the confidence of high  
official news sources, and can not  
break that confidence until they are  
authorized to do so.

President Coolidge's conference  
with the press of the White House  
are held twice each week, on Tues-  
days and Fridays. These confer-  
ences are attended by from one hun-  
dred to two hundred newspaper cor-  
respondents representing papers in  
all parts of the United States.

The president never permits other  
appointments to conflict with these  
regular press conference hours. The  
conferences are restricted rigidly to  
members of the press. Great pains  
are taken by the secret service offi-  
cers and other attaches of the White  
House to exclude curiosity seekers  
or other outsiders.

## Questions And Answers

By FREDERIC J. HASKIN

Most people believe that everything connected with the government  
is in some way associated with politics. This is not true. The great  
machinery that has been built up in Washington for solving the prob-  
lems of the people goes on its way as changing and undisturbed with little  
concern for parties or politics. Its object is the betterment of living con-  
ditions of the American people.

This paper feels that it can perform no greater service than to place  
its readers in personal touch with government activities. For this pur-  
pose it supports a Washington Information Bureau—an organization of

H. W.

A. Within 30 miles of Pittsburgh  
there is a population of approximate-  
ly 1,800,000; within 100 miles radius,  
5,400,000 persons, and within a 500  
mile radius, 64,000,000 persons.

Q. What name is given to words

motor been known? T. C. C.

A. It was invented in 1890.

Q. How many cars of freight have  
been moved through the Conway and  
Scully yards in a day? J. C. D.

A. The Pennsylvania railroad sys-  
tem says that during October 1923,  
when traffic as a whole was at the  
highest point ever reached, the daily  
dispatching east and west from Con-  
way and Scully yards averaged as  
follows: East from Conway, 1276;  
west from Conway, 1600; total 2876;  
east from Scully, 721; west from  
Scully, 625; total 1346. The figures  
represent typical peak movements dur-  
ing the busiest traffic on record.

Q. When was the circular saw in-

The last is the best for home use.

Q. Where are operas given in  
Paris and London? R. H.

the opera house and also the Comedie  
Francaise. Opera in London is gen-

Q. What will take a heat stain off  
a mahogany table? C. L. W.

A. Heat stains may be removed  
from a highly polished table by ap-  
plying the following in their respec-  
tive order, using a separate cloth for  
each: Kerosene, alcohol and sweet or  
luscious oil. The last should be well  
rubbed in until the spot no longer  
shows. Frequently a cloth moistened  
with warm camphorated oil will re-  
move the stain. If these methods  
fail, probably the table will have to  
be refinished.

Q. What is the amount of alloy in  
a \$20 gold piece? A. M. McC.

A. The fine gold contained in a \$20  
gold coin is 464.40 grains; the total

neither adds nor detracts from the  
value of the coin.

Q. When was the Battle of Oris-  
kany fought? J. A. T.

A. It was fought near Oriskany,  
N. Y., on Aug. 6, 1777, between British  
and Indian and American forces. The  
Americans were under Gen. Herk-  
imer. It was one of the most cruel  
and bloody engagements of the Revo-  
lution and each side lost one-third of  
its numbers. The Americans remained  
masters of the field, but Gen. Her-  
kimer was wounded and died a few  
days later.

## Backs Are Important in the Mode

Paris Ornaments the Backs of Frocks and Uses an Upward Movement in Front—Bolero Backs, Capes and Flounces Are Marks of Chic

Paris has given a backward glance to the mode and lends importance to the details which mark the chic of the gown.

Elaboration at the back is the keynote of feminine smartness. The cape back, popular seasons ago, has returned for its share of chic and frequently appears on the very newest and smartest of afternoon and evening gowns. The cape, which further calls attention to itself, is lined with rich metal fabrics in colors of no uncertain brilliance. The cape coat is also much worn in the smart manner along the avenue and is often effective in fur, which may also be seen bordering the coat.

The scarf of distinctive lines also is used to show importance behind the new mode. It is lined in rich tones and falls with graceful folds down the backs of the newest frocks.

The frock that ties behind is decidedly new and effective. The large bow, or small tie, is a mark of distinction on many of the newest models. In the evening gown of gold lame or metal lace, employing an ornamental girdle, the lines at the back achieve smartness by distinctive draping which gives the broken hem line.

The decorated back is further noticed in a jabot effect at the back, which sometimes terminates in a train. Another back of importance is the bolero back, which is to be desired above all things in the chic frock for sports or afternoons.

The bolero may, of course, call attention to itself by appearing in the front as well, but many times it proclaims a new note by its broken lines at the back alone. The bolero effect makes possible the lines of a two-piece frock and is doubly popular because of this.

The upward movement in front is still seen, and the frock which ties in front and gives a graceful flare are noted for the unusual lines with which Paris has them.

There is a flounce effect, often richly furled, which gives importance to the back, while a hint of the old bustle is seen in many of the draped girdles and bows behind.

The center of the back is not always used to denote new treatments, but frequently one side will be used for decorative purposes. The gown of simple lines in front, with ample back, is apt to show an extreme fullness at one side caught with an ornament of beauty.

Materials play a leading role in deciding the manner in which a frock shall be draped. Velvets, which are so much seen this winter, lend themselves perfectly to all treatments. They fall with graceful appeal in a cape back, or are smartly draped into a back fullness at a low placed waistline.

Metal fabrics do not drape well and so rely upon distinctive cut for their chic. The two piece frock, or bolero type, are found in metallic materials even in the most formal types of gown.

Laces are particularly effective in the draped mode. They are also smartly used in flounces and panels and are very new in the tiered lines which the season advances.

Dorothy Mackall, whose blond loveliness is well adapted to the mode of flowing lines and smart back treatments, has selected a very new frock of moiré which boasts a decorated back. Miss Mackall is appearing in the new First National picture, "Joanna."

### Stoner Party

Mr. and Mrs. A. W. Stoner, Tenth st., entertained 18 guests at a most delightful party Saturday evening. At 6:30 a dinner was served in the Quaker Tea House, McKinley ave. The table was attractively appointed in keeping with the Christmas holiday season, and red candles added beauty. Red nut cups, tied with red satin ribbon were given as favors.

At the conclusion of the dinner the guests were taken to the Stoner home, where the housewifery department was playing bridge. There being no prizes, the winners in the games were Mrs. E. H. Schroeder and Mrs. A. E. Richardson of Akron, R. R. Miller and Ward F. Eckstein.

After the bridge games, Mr. Richardson, tenor soloist in the Universal st. church at Akron, sang several songs which were greatly appreciated.

### Miss Douglas Hostess

Miss Hazel Douglas delightfully entertained a company of friends at luncheon and bridge Saturday afternoon at the Quaker Tea House, McKinley ave. Yellow appointments predominated and yellow candles added attractiveness to the table at which covers were arranged for 12.

The after luncheon hours were devoted to playing bridge. Mrs. R. D. Owen was awarded the prize for game in the games.

### Announcement Engagement

Mr. and Mrs. J. J. Isensee, of Boston, formerly of Salem, announce the engagement of their daughter, Ruth Alcen, to Clarence A. Schmid, son of Mr. and Mrs. John F. Schmid of Salem.

### COOLIDGE WARNS

Continued from First page  
eration that the free list was es-  
pecially constructed to favor the farmer  
and that 80 per cent of our imports  
either come in free or pay a duty to  
protect him.

"Of the \$1,500,000,000 of goods pay-  
ing imports last year," he pointed out,  
\$750,000,000 was upon agricultural  
products, levied solely to protect the  
farmer, including animal and dairy  
products, grain, flax, wool, nuts, cit-  
rus fruits and many others."

"It cost \$200,000,000 in duties to  
bring this produce in.

Aid Co-operatives  
The total adverse cost on the farm-  
er's purchases as a result of the  
tariff is only between 2 and 3 per cent  
of his purchases, the executive de-  
clared. Industry and commerce foot  
the bill.

Plodding his administration to aid  
in building up co-operatives, Mr.  
Coolidge continued:

"While the government ought not  
to undertake to control, or direct, it  
should supplement and assist all ef-  
forts in this direction. The leaders of  
the co-operative movement, with the  
advice of the Department of Agri-  
culture, have prepared what is be-  
lieved to be an adequate bill embody-  
ing these principles, which will be  
presented to congress for enactment.  
I propose actively and energetically  
to assist the farmers to promote their  
welfare through co-operative market-  
ing.

Help Farmer to Help Self  
"Under the working out of the new  
visions of this bill the farmers would  
have the active and energetic assist-  
ance of the government in meeting  
the problem of surplus production.  
Through consultation and conference  
the best experts of the country would  
be employed as the needs require  
and methods of storage, credit, and  
marketing would be devised. The  
agencies created would have at their  
disposal the active co-operation of  
the great organizations of the Depart-  
ment of Agriculture, commerce, and  
federal banking. Their representa-  
tives at home and abroad would be  
engaged in locating and supplying do-  
mestic and foreign markets.

"The fundamental soundness of  
this proposal rests on the principle  
that it is helping the farmer to help  
himself."

Financial Aid  
On the extension of financial aid  
to the farmers, the president said:  
"For financing the farmer we are  
developing the farm loan and home-  
mediated credit banks. These have  
put out about \$4,200,000,000 of loans  
at moderate rates to about 35,000  
farmers. In addition, there is the  
general banking system, national and  
state. All of these agencies need  
to give more informed attention to  
farm needs. They need more en-  
ergy in administration. They should  
be equipped to supply not only credit  
but sound business advice, and the  
farmers to a much better extent  
should learn to use all these facilities."

Agriculture as a whole President  
Coolidge said, he found to be steadily  
improving.

### Says---Now Stiff Joints Must Go!

New Discovery Limbers 'Em Up and  
Even the Creaking Ceases

Yes it's true—the world progresses.  
All you have to do nowadays to  
limber up that old stiff, creaky knee  
joint is to squeeze a half inch of mir-  
acle working substance from a tube.

Then rub it on the offending part  
for about a quarter of a minute or  
until it soaks through the skin and  
disappears on its errand of mercy.

Then read the evening newspaper  
and go to bed.

The chances are that your misbe-  
having knee joint will lose its "creak"  
while you are dreaming about the  
high fences you used to leap when  
you were a youngster.

"And in the morning," says one  
who has tried the new discovery,  
"you will feel so happy that you will  
want to jump into your sportiest  
clothes and walk briskly down the  
street just to show the neighbors that  
you are not as old as they think you  
are."

Joint-Ease: They call this wonder-  
working substance, for the reason  
that when ordinary remedies fail to  
limber up the stiff, inflamed rheu-  
matic joint or reduce the swelling,  
Joint-Ease succeeds.

It's a good name for a good, clean,  
stainless prescription that in just a  
few months has proven to a multi-  
tude of people that lame, swollen, dis-  
torted joints can readily have the  
kinks taken out of them and work as  
smoothly as ever.

The Joint-Ease is for bothersome  
joints, whether in knee, elbow, ankle,  
hip, shoulder, spine or finger and for  
that purpose its sale, at 60 cents a  
tube is immense.

The J. H. Lewis Drug Co., "Fledder"  
drug store, Bolger & French, sells  
dozens of tubes of it every week and  
druggists everywhere report a big  
demand.

Always remember, when Joint-Ease  
gets in joint a new gets out—quick.

## CRABBE TO MAKE GAMBLING ISSUE IN OHIO CONTEST

Columbus, Dec. 7.—Anti-gambling will be the issue upon which Attorney General C. C. Crabbe will wage a campaign for the Republican gubernatorial nomination it was indicated here today.

"I look upon the question of race track gambling as of such importance to the state that, if no candidate for governor will assure the people he will ban this form of gambling, it is probable that I will decide to become a candidate myself and carry this issue direct to the people," said Crabbe.

"The state now is reaping the harvest of gambling sown throughout the summer, from early spring to fall. When he stands with open arms to all bookies, gamblers and violators who operate race tracks during the summer, we cannot expect them to leave the boundaries of the state, or to discontinue gambling in some form or other, during the winter."

## A NEW ADDITION TO OUR SERVICE

NEW YORK to FLORIDA

Clean, Comfortable, Economical Way

By Sea on S. S. Kroonland

Largest and Most Comfortable ship in Coastwise Service  
First Sailing, December 10th, 1925

Clean, Comfortable, Economical Route

The advent of the American Line's service between New York and Miami, with the great transatlantic liner Kroonland, heralds a new era in coastwise traffic. Here is an ocean steamship of 22,500 tons displacement, (about 10,500 tons larger than her nearest competitor) that sets a new standard in coastal service. From now on the voyager from New York to the golden vacation lands of Florida can go by sea, and still enjoy the comforts of transatlantic travel—the comforts, sturdiness and steady sailing qualities which are made possible by the huge size of the Kroonland. But important as her size is, the Kroonland offers infinitely more than that. Her shipboard service is smooth-functioning, courteous, and helpful. In cuisine she compares favorably with the highest transatlantic standards. As a ship of the American Line Fleet she maintains the traditions of ultra-service built by the only line which has carried the American flag across the Atlantic for more than half a century.

Yet this new service is economical. A large proportion of the accommodations are priced at fifty dollars. This covers room, berth, and meals. For those who demand more luxury there are superior accommodations at slightly higher rates. Rooms are available with private bath and en suite.

The Kroonland will operate on a weekly schedule, leaving Pier 62 (foot of West 23rd Street) New York every Thursday and leaving Miami Sunday.

She will carry First and Third Class passengers only, and the number of those will be strictly limited. In view of this limitation and the popularity with which the service has met prospective passengers are urged to request to make reservations as early as possible in order that they may have the widest choice of accommodations.

Miami, situated on east coast of Florida at beautiful Biscayne Bay, is convenient to all parts of the state. Prompt train and motor bus connections are made which will bring the traveler within a few hours to any point on the East or West coast. The sparkling gaiety of this thriving, modern city, and the exceptional charm of the new resorts and developments within a radius of a few miles, make it the interesting and logical entrance for all travelers to Florida.

Begin your vacation or your business trip to Florida in this unusually satisfactory way. Begin it with a short ocean voyage which will mean infinitely more to you than merely a "means of getting there." You will be in vacation land as soon as you have stepped aboard the Kroonland at New York.

For the return from Florida the trip on the Kroonland makes a very fitting and restful conclusion to a happy vacation. A liberal reduction is allowed on round trip tickets.

Fare from New York to Miami, \$20.00 and upwards, including meals and berth. Passengers' automobiles are carried uncrated.

## WHINNERY PICKS ALL-COUNTY TEAM

Leetonia High Coach Gives Three Of His Players Places On Team

Ray Whinnery, Leetonia High coach, has picked an all-county team for 1925 which is as follows: Perry, East Liverpool, and Cosgrove, Salem, ends; Beltempo, Leetonia and Older, Salem, tackles; Ginther, Leetonia, and Larkins, East Liverpool, guards; Lisbon, quarter; Coffee, Salem, and Paul, English, Liverpool, halves; and R. Price, Leetonia, fullback.

He claims Larkins is a more dependable center than Fisher; and places Ginther and Beltempo rather than M. Price and Clifford of his team on the line. At full back Whinnery places his own fullback, and it is this selection that will cause the most comment. Price was so weak in the Salem game he could neither gain ground nor stop Salem's offense. He believes he is a better player than Pignatore, the great back from Wellsville.

Whinnery's second team has Garwood, Lisbon, and Shenk, Palestine on ends; Bough, Liverpool and M. Price, Leetonia, tackles; Sheen, Salem, and Clifford, Leetonia, guards; Fisher, center; Flynn, Palestine, quarter; Reible, Liverpool and Pignatore, Wellsville, halves; and Hum, Lisbon, fullback.

## RED GRANGE GETS \$25,000 FOR GAME

Beats New York As Crowd Of 70,000 Watches; May Enter The Movies

By DAVIS J. WALSH

New York, Dec. 7.—"Red" Grange, the well known man about America, will take unto himself today a huge slice of the quarter million dollars that seems destined to be his, according to C. C. Pyle, his business manager. Grange will sign a movie contract some time today at a figure that will make his football earnings seem meager by comparison.

If Grange's first onth as a business man grosses a quarter of a million, his manager will cut 50 per cent, according to reliable advices.

The split, they say, was on a sum between \$25,000 and \$30,000 yesterday when Grange and the Chicago Bears beat the New York Giants, 19 to 7, before a crowd of 70,000 at the Polo grounds. This made Grange's earnings well above \$75,000 since he left Illinois to turn professional several weeks ago.

The young man did nothing spectacular against the Giants, barring the interception of a pass that resulted in a 30-yard run for a touchdown. Grange merely was an effective football player yesterday.

Grange, in brief, was just a plunger yesterday. His longest gain was 15 yards off tackle, and, for once, the plunger got his due, not only in popular attention but in what might be termed very serious money.

Wooster — The village of Shreve, the smallest town in Ohio supporting a military company, will receive 105-millimeter howitzer as a war trophy. This gun was awarded to Wayne county in the recent distribution.

## FEWER EXCHANGES AFTER CHRISTMAS BY SHOPPING NOW

Salem merchants predicted yesterday that the volume of after Christmas "exchanges" in Salem stores would be materially reduced this year.

The merchants believe that this situation is a direct result of the record breaking movement which started late in November to get Christmas shopping well under way, or even completed, in advance of the usual last-minute rush. As a result, merchants say, Salem shoppers are this year giving far more attention to the selection of their gifts.

From years back merchants recall that the two or three days immediately after Christmas was to them almost a nightmare as a result of their attempts to satisfy customers who sought to exchange unsuitable gifts. This is then a difficult task, as stocks have been depleted by the Christmas rush.

Salem merchants have welcomed the new movement which seems to have swept the country this year in behalf of early-season gift-buying. Some ascribed it to the unusually early cold weather, but many feel that it is a direct result of the educational campaign which has been waged persistently by various women's organizations. These groups for years have been hammering home the point that the shoppers who make their selections early in the Christmas season get a far better result than those who wait until the last minute when the stores are crowded and stocks are depleted.

### TOM HAS DUAL ROLE

Thomas Meighan plays a dual role in "Irish Luck," his newest Paramount picture, which will open at two day engagement at the Grand tonight. Tom has the part of a New York traffic cop vacationing in his native land of Ireland. He got this trip for being the most popular man in the department, a contest decided. In Ireland Meighan helps out an aristocrat, Lord Fitzhugh, and saves him from a band of crooks. Tom plays the lord's part also, a radically different type of characterization than that of a mere cop. Meighan and his company, among which is Lois Wilson, the heroine went to Ireland to make the picture and much of the famous scenery in and about the Killarney lakes may be viewed in this production. The picture is an adaptation of the Saturday Evening Post serial, "An Imperfect Imposter."

### Guard Against "Flu" With Musterole

Influenza, Grippe and Pneumonia usually start with a cold. The moment you get those warning aches, get busy with good old Musterole.

Musterole relieves the congestion and stimulates circulation. It has all the good qualities of the old-fashioned mustard plaster without the blister. Rub it on with your finger-tips. First you feel a warm tingling as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief. Have Musterole handy for emergency use. It may prevent serious illness.

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

## How Poor Gasoline Results In Poor Lubrication?

Gasoline for use in automobiles should be very volatile—which is just a technical way of saying that it should vaporize easily.

If the gasoline you use is good and your carburetor properly adjusted, only a vapor, very much like fog, will enter your cylinders.

But if the gasoline is poor, the vapor will be less fine, and some of it will form a liquid on the sides of your cylinder walls and run through into your crank case.

This is what is known as crank case dilution—gasoline in your lubricating oil. Regardless of how good the oil is, the addition of a very little gasoline will make it worthless as a lubricant.

Cylinders worn egg-shaped, scored cylinders, badly worn piston rings—all of these things result very quickly if the gasoline you use in your motor is not good gasoline.

We do not handle the only good gasoline in the world. But we do guarantee that the gasoline you buy from us will be always and uniformly good.

### BUCKWHEAT

Buckwheat does not agree with everyone, but unless there is some individual reason against it is a valuable addition to the winter menu. Buckwheat flour contains 8.7 percent of body building material, 1.6 percent of fat, 76.2 percent of mineral substances.

### TODAY'S RECIPES

**Scalloped Potatoes**—Enough Potatoes may be baked at noon for both lunch and dinner at night. Reheat in the oven. Peel potatoes and slice thin. Put in buttered baking dish, season with pepper and salt and pour over hot milk enough to cover in which a large lump of butter has been dissolved. Cover the top with bread or cracker crumbs and a little grated cheese and bake for half or three-quarters of an hour.

**Bran Biscuits**—One cup flour, one cup bran, two teaspoons baking powder, one-half teaspoon salt, two tablespoons shortening, a little sugar, and milk enough to make soft dough.

**Apple and Nut Delight**—Six apples, one-half pound walnut meats, one box gelatin (raspberry) whipped cream. Core apples, using good baking apples, ones that will hold their shape after baking. Fill center with white sugar and bake. When cold put in little glass dishes, cut up walnut meats finely, and fill centers. Make gelatin as for jelly and when cool pour over apples and fill the small dish. Set away to harden. When firm whip the cream and sweeten and flavor with vanilla. Serve.

**Beet Salad**—Boil one bunch of beets till tender, peel and chop fine. Take one pint vinegar and season with sugar, salt and pepper to taste. Let come to a boil. Then add two level teaspoons minute tapioca and boil until it thickens. Add the chopped beets and turn into individual molds. To harden. Serve on lettuce leaves with mayonnaise. Canned beets may be used for this salad.

### SUGGESTIONS

Heavy articles like blankets and bedding may be washed quite easily by using one of the inexpensive hand suction washers. The rinsing may be handled in the same manner, the articles one by one folded, put through the wringer, the folds of which have been rather loosely set, and then hung out on a breezy day. The air in motion is necessary to make cotton and linen articles light and fluffy.

Be very careful to keep the lids of sauce pans perfectly clean. The flavor of one dish may cling to a lid which has not been properly washed and spoil a second dish which is prepared in the same pan.

## Liver Trouble Now a Known Cause of Premature Old Age

Medical science knows that poisonous waste in our bodies would actually cause death in a few days if not eliminated by Nature's processes. Because it destroys those deadly poisons, the liver is our most important organ—the body's wonderful purifier.

The liver prevents the formation of body poisons that cause diseases of the heart, kidneys, blood vessels and are chiefly responsible for premature old age.

When the liver becomes weak, the poisons are sucked up by the blood and health is broken down. Physicians know that the liver cannot be regulated by drugs, but a safe Nature substance has been discovered which will at once increase the vital bile supply. The discovery is purified ox gall.

Get from your druggist a package of Dioxol. Each tablet contains ten drops of purified ox gall. In 24 hours the poison toxins will be removed. Your liver will be regulated. Blood purification will begin. Salty skin will clear. You will feel so much better you will know you have found the cause of your ill health. Dioxol tablets are harmless, tasteless and cost less than two cents each.

These genuine ox gall tablets are prepared only under the name "Dioxol." If any tablet is offered you under another name, refuse it. Accept only Dioxol in the original genuine package. Test Dioxol free. Mail this coupon now.

## LATEST IN STYLE FOR WOMEN

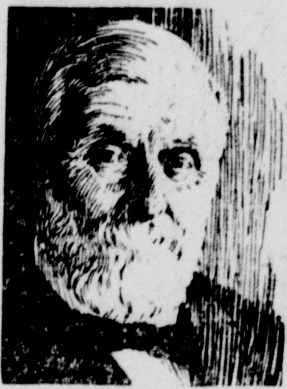

Paris, Dec. 7.—Tea gowns are more tantalizing than ever this season and fashionable tea-houses, of which Paris has an increasingly large number, are beautiful sights about 5 o'clock.

Many of the new tea frocks are of velvet and lace. Chiffon velvet and panne are the favorite materials for tea gowns and are used in both obvious and unusual ways. A Crat treuse green panne frock becomes a tea gown with the aid of a coat of gold and silver lace with appliques and piping of the panne sewn in with green embroideries and pearls. Delicate almond green velvet trimmed

with golden fur, coat and dress to match with a hat of green and gold, makes a charming tea ensemble from Jeanne Lehouvier's collection.

Jean Paton is showing a charming dark blue velvet coat lined with leopard fur and worn over a velvet gown to match. A silver dress and coat lined and trimmed heavily with moleskin accompany a little toque of silver lame and mole pea de soie. A beige ensemble has a large beige hat turned up behind with velvet. Mrs. Jacques Balsan, the former Consuelo Vanderbilt, was noticed taking tea recently in a simple tea gown of crepe de chine in reseda green contrasted by dainty collar and wrist ties of organdie.

## Women Need a Mild Laxative —Not a "Physic"

Countless women and girls now know how foolish and needless it is to "purge" and "physic" themselves every few days to avoid sick headache, dullness, biliousness, salivary skin, colds, or sour, gassy stomach.

They now take a laxative only occasionally. They have found that one dose of Dr. Caldwell's Syrup Pepsin will establish natural, healthy bowel movement for weeks at a time; even for those heretofore chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy, bowel movement but, best of all, it is

often months before another dose is necessary. Besides, it is absolutely harmless and so pleasant that even a cross, feverish, bilious, sick child gladly takes it.

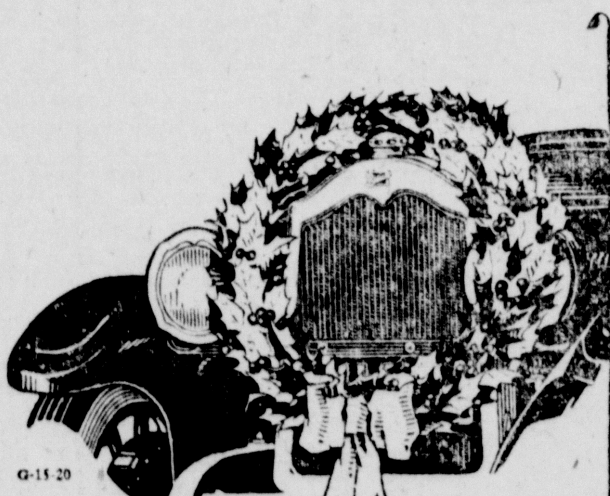

Buy a large 60-cent bottle at any store that sells medicine and just see for yourself.
